## Community Transportation Networks

# South Central & West Denver Community Transportation Networks Newsletter

The Department of Transportation and Infrastructure (DOTI) is continuing construction on Phase 2 of the Community Transportation Networks (CTN) in South Central Denver and West Denver, as part of a bold program aimed at rapidly **expanding slow, safe, and comfortable transportation** options in your community.

In this newsletter you will find the following Slow & Safe Street project updates:

- **South Central Denver Construction Updates**
  - Neighborhoods Affected: West Washington Park, Speer, Capitol Hill, North Capitol Hill
- **West Denver Construction Updates**
  - Neighborhoods Affected: Villa Park
- **Citywide Construction Updates**

---

## South Central & West Denver Construction Updates: Slow & Safe Streets

Building out slower, safer streets in south central and west Denver is a multi-year process. DOTI's analysis of recently built projects concluded that speed humps are an effective speed reduction measure, and they are being added to more projects in these networks. Other safety elements are being targeted at the highest priority locations. *See the corridor maps below to learn more about specific safety improvements on upcoming corridors to make these streets safer and more comfortable for all travelers.*

---

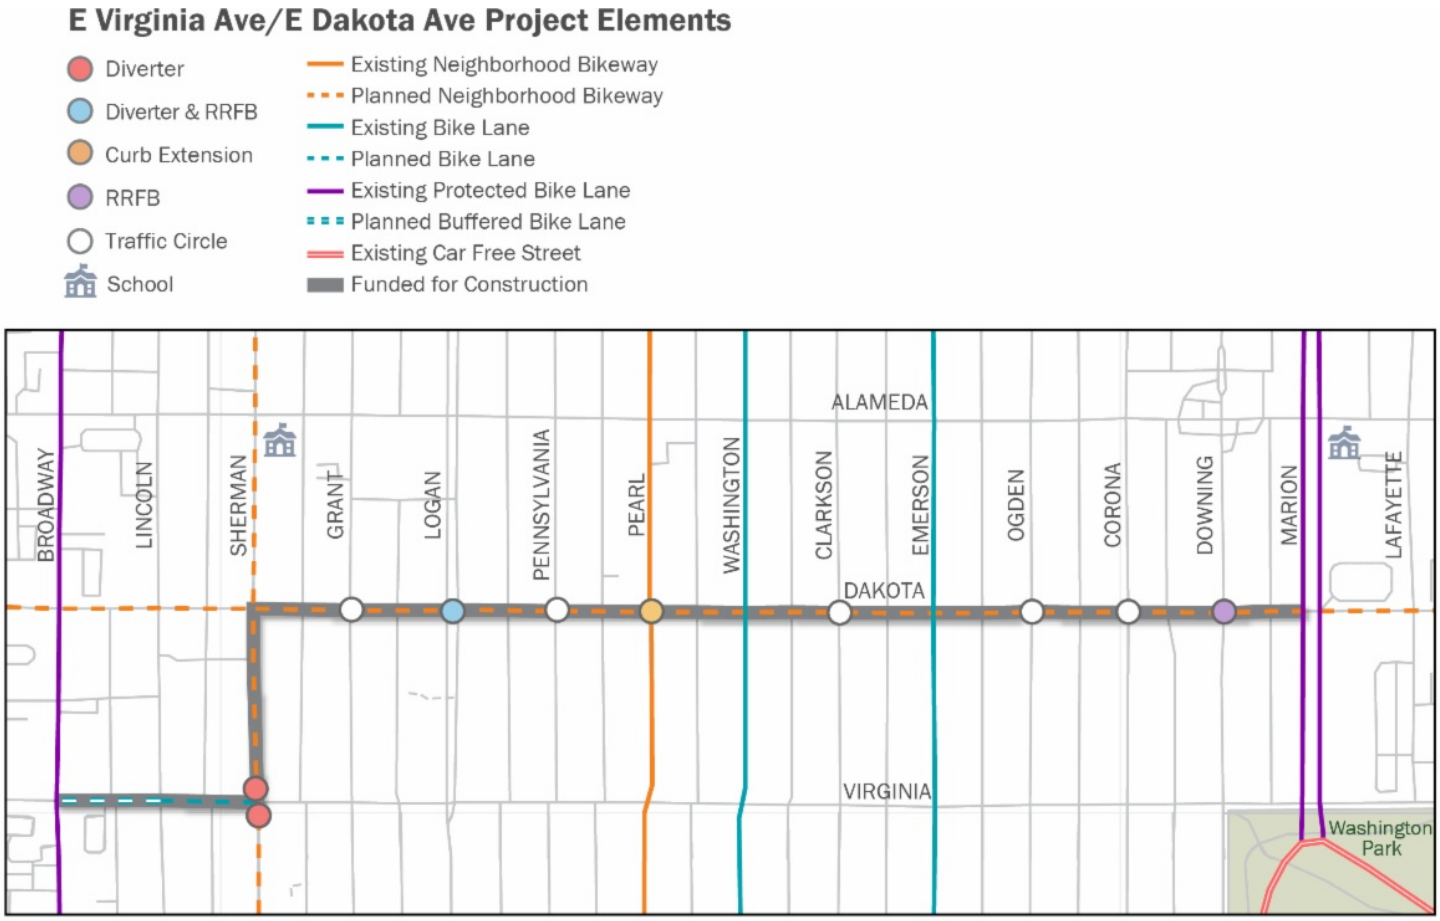
### 2025 South Central Denver Construction Project Details

**E Virginia Avenue / E Dakota Avenue from S Broadway to S Marion Street Parkway**

*Construction expected to begin in September 2025.*

Neighborhood: West Washington Park

This project will include a buffered bike lane from Broadway to Lincoln St and a bike lane from Lincoln St to S Sherman St. Additionally, the project includes a neighborhood bikeway on S Sherman St and E Dakota Ave, which includes pedestrian safety improvements like curb extensions as well as flashing lights to make it easier for people walking to cross busy streets along with traffic calming elements that reduce vehicle speeds such as traffic circles. Diverters will be installed at the intersections of E Virginia Ave & S Sherman St and E Dakota Ave & S Logan St to reduce cut-through traffic.



---

**N Pearl Street / N Emerson Street from E 3rd Avenue to E 20th Avenue**

*Construction expected to begin in August 2025.*

Neighborhood: Speer, Capitol Hill, North Capitol Hill

This neighborhood bikeway will include pedestrian safety improvements such as curb extensions and pedestrian refuge islands to shorten crossing distances, as well as flashing lights to make it easier for people walking to cross busy streets. The project will also include traffic calming measures that will slow down vehicle speeds such as speed humps and traffic circles, and bicycle intersection crossing improvements such as bike boxes on N Pearl St at the intersections of 13th Ave, 14th Ave, and 16th Ave.

N Pearl St/N Emerson St Project Elements

## 2025 West Denver Construction Project Details

**N Tennyson Street / W 7th Avenue: W 11th Avenue to W 7th Avenue to N Perry Street**

*Construction expected to begin in September 2025*

Neighborhood: Villa Park

This neighborhood bikeway will include pedestrian safety improvements such as curb extensions and pedestrian refuge islands to shorten crossing distances, traffic calming using speed humps to slow down vehicle speeds, and wayfinding signage. This project also features a climbing bike lane between 9th and 10th Avenues due to the steeper grade of this segment.

## Citywide Construction Projects: Slow & Safe Streets

Beyond the South Central and West Denver Community Transportation Networks, additional Slow & Safe Streets are being constructed this year, including:

- **Tremont Place / 24th Street / Glenarm Place: E 20th Avenue to 26th Street**
- **E 28th Avenue: Glenarm Place to N Vine Street**
- **E 21st Avenue: Franklin Street to York Street**
- **N Lafayette St / N Marion St: E 21st Avenue to E 36th Ave**
- **E 26th Avenue: N Vine Street to N Josephine Street**
- **N Williams Street: E 21st Avenue to E 31st Avenue**
- **E 21st Avenue: Franklin St to York St**
- **Kearney Street / Krameria Street: E Virginia Avenue to E Smith Road**

Click **here** to learn more and sign up for updates on these upcoming improvements.
